---

*Featherfist*

POWER & PURPOSE. HOMELESS NO MORE.

# Mission

At Featherfist, it is our mission to give “power and purpose” to those in the homeless community by assisting them in their advancement toward self-sufficiency.

Since we realize shelter is not enough, we expand our services to include a full range of social service networks to meet the myriad demands of retraining, rehabilitating and re-entry into the mainstream.

We believe that those persons requiring assistance to be self-reliant, whether mentally or physically exceptional, should have the opportunities that will allow them to function as independent and productive members of society.

It is OUR mission to eliminate homelessness!

# Vision

By the year 2020, the Featherfist Model of Human Service delivery to the homeless, the at-risk homeless, homeless veterans, and those living in poverty, will be viewed as a “best practice” resource for addressing the comprehensive needs of homeless families and individuals.

Featherfist will be recognized as a premier provider of in-depth assessments, practical service planning, and effective case management ratios.

Our thirty-five years of documented success will validate the integrity of the Featherfist Model as one of the most successful methodologies for ending homelessness and intergenerational poverty.

## Organizational Background and History

Featherfist, formed in 1984, serves homeless men, women and children and those “at risk” of becoming homeless throughout the City of Chicago. For the past thirty years it has provided extensive outreach; comprehensive case management and supportive services and referrals; and preparation for and access to permanent housing, with follow-up case management for a minimum of six months.

With “*Power and Purpose*” as its theme, Featherfist has developed model programs that successfully address the underlying causes of homelessness for individual clients and the homeless population as a whole. In 1990, Featherfist became formally incorporated as a 501C3, and received its first public funding in 1994. The successes to date have brought additional recognition and funding from the City of Chicago, State of Illinois, U.S. Department of Veterans Affairs, the Congressional Black Caucus and U.S. Department of Housing and Urban Development.

# The Featherfist Philosophy

# Accomplishments

Over the years Featherfist has achieved several notable successes including:

Over 90% retention -  
“Those taken off the  
streets, stay off the  
streets!”

Over 90% of clients  
obtained permanent  
affordable or  
supportive housing

Over 60% of clients  
have received  
necessary health  
care treatment

# Featherfist Resources

- ❖ Featherfist offers a skilled and dedicated staff specializing in comprehensive case management services including: basic education and computer training, and other supportive services.
- ❖ Featherfist has access to over 1,000 units of housing and a community network of over 40 agencies for long-term counseling and supportive services.
- ❖ Featherfist has a fleet of vehicles available for outreach and engagement, and to transport clients to essential services.
- ❖ Featherfist provides community educational and motivational speaking events. Through our FEAT program (Featherfist Education and Technology), we offer clients a 12-week comprehensive computer training class. Additionally, the program emphasizes areas of vocational training, technology certifications, and life skills by introducing Language Arts, Math, Reading and Writing into the curriculum.

# Program Services

# Program Services

**Featherfist, a not-for-profit social service agency whose main office is located on the South Side of Chicago in the South Shore community, provides supportive and housing services to the homeless community throughout Chicago. With six satellite offices, Featherfist has four main areas of focus for service delivery:**

## Outreach & Engagement

Featherfist's very beginnings are rooted in street outreach. Over 30 years ago, before Featherfist was ever an "organization", volunteers combed the streets searching for the homeless. From those beginnings, Featherfist has grown into the premier agency in the City – and specifically the south side of Chicago – for outreach to the homeless citywide on the streets and in shelters and engaging with them to develop relationships that ultimately lead to assisting them with much needed essential services and eventually, housing. During the engagement process, an intake is performed to determine what immediate crises need to be addressed, and to refer the family members for services to address those crises. Outreach and Engagement is the linchpin to developing the relationship between client and case management.

## Case Management

Once the outreach has been made, engagement taken place, and any immediate crises addressed, the next step is to conduct in-depth assessment of the household. This assessment is done by the Case Management team. Areas of assessment include, but are not limited to: number of members in the family; current level of income; substance use disorders; mental health issues; chronic physical issues; developmental disabilities, ex-offender status; prior evictions; legal issues regarding DCFS, child support or other child protective concerns. The results of this assessment enable the case manager(s) to begin the development of a service plan and refer family members for appropriate services. This plan not only includes addressing barriers as listed above, but also prepares the family for moving into their own permanent housing. Number of family members, current income and barriers help to determine if the household needs subsidized housing or affordable housing. Case management continues through the housing process and for as long as 24 months.

# Program Services

## Housing Location

Featherfist's Housing Department receives referrals from Featherfist case managers to begin the housing search for the family. During the case management process, a housing application is completed and indicates the area of the city the family wants to live in, number of bedrooms and any other special accommodations needed. Housing staff begins the search for appropriate housing. Featherfist's Housing Department has a city-wide reputation for developing relationships with housing providers to secure safe, secure and affordable housing in every neighborhood across the city. Some neighborhoods are more challenging than others, but Featherfist's Housing locators make every effort to locate suitable housing in the family's preferred neighborhood whenever possible. Housing locators maintain an inventory of available units, and provide HQS inspections of each unit prior to move-in by the family. Housing staff also, when necessary, arranges for moving assistance for the family.

---

# Program Services

## Veterans' Services

Featherfist has expanded its Veterans' Services programs from one (1) in 2004 to five (5) in 2012, and maintains those five programs today. Former military service members comprise a large portion of the homeless population in Chicago. Many of those homeless veterans live with PTSD (post-traumatic stress disorder) and/or physical disabilities. These veterans require specialized and comprehensive case management to address their barriers and bring them back into mainstream society. Featherfist, by utilizing case managers who are former service members, and networking with local VA Medical Centers, has been able to successfully house many veteran households. Because of our success rate in housing homeless veterans and assisting them to maintain housing, Featherfist was awarded the only TIP (Transition in Place) Veteran housing program in Illinois in 2012. We recognize the importance of providing the highest quality services to this very vulnerable population and will continue to serve the homeless veterans in Chicago until there are no more *homeless* veterans to serve.

In addition to the four (4) core service areas outlined above, Featherfist also provides supportive services to senior citizens residing in senior housing and veterans residing in housing other than Featherfist's. Featherfist also provides basic adult education and computer training to homeless individuals and the community, and provides job-skills training and employment referrals when appropriate.

# Synthesis of Strengths and Opportunities

# Synthesis of Strengths and Opportunities

A traditional SWOT analysis was carried out in 2015

## Strengths:

-  Four Pillars are a strong measurement of Featherfist's mission.
-  Comprehensive case management and in-house programs that deliver quality services and maintain compliance with funders.
-  Quality, clarity, and consistency of its mission, vision, and values.
-  Featherfist adapts to external changes well.
-  Stable financials have allowed Featherfist to weather funding changes in government programs.
-  Passionate and loyal employees who come from a diversity of backgrounds, and are committed to Featherfist's mission.

## Opportunities:

-  Reliance on government funding means that Featherfist cannot always fully express or realize their desired outcomes.
-  Constant changes to government programs creates a necessity to seek sources of unrestricted funding.
-  Lack of consistent marketing of Featherfist and its programs and case management services.
-  Increased need for technological upgrades to internal systems. (e.g., becoming less "paper reliant") and real-time reporting functions

# External Influences

## ECONOMIC CONDITIONS

Featherfist acquires over 85% of funding through government programs. Reliance on government funding often inhibits Featherfist from fully realizing its values. This is due to restrictions that government funding places on *how* goals and outcomes must be accomplished, which can limit Featherfist's choices in determining the best way to help each client.

Restrictiveness of government funding also affects other parts of the organization and has led to the agency using outdated technology systems and an increase in burnout among staff. By increasing unrestricted funding and diversifying funding sources, Featherfist would be better positioned to fully express its values, update technology systems enterprise-wide, and provide additional support for staff members who are fatigued.

Our goal is to increase Featherfist's unrestricted funds by subcontracting case management services and other efforts. This would allow Featherfist to consistently gain a minimum of \$250,000 additional revenue with growth year over year. With access to additional funds, Featherfist will have more autonomy in how it serves clients and improves organizational efficiency.

# Organization Strengths

Featherfist has access to varied resources to help their clients.

Best model of services: crisis → permanent housing

Stable and healthy financials.

AMO and outreach are very strong and increase accountability and connection to the cause among staff.

The housing department can house clients quickly, efficiently, and is not restrictive.

Visible in the community.

Multi level understanding of veterans services and psychology.

Proven ability to respond in crisis situations.

Experienced, committed and strong executive leadership team.

Featherfist is unique in that it provides total in-house services (outreach, housing, and comprehensive case management).

Featherfist has strong partnerships and working relationships with landlords across Chicago area.

Diversity of skills, experience, and lifestyle of staff.

# Organization Challenges

Due to funding cuts, staff's responsibilities were increased, which led to burn out and fatigue.

Improve staff's consistent use of new technology and awareness of new processes and procedures.

Decrease use of paper and implement automated systems for real-time reporting.

Create internal programs for staff to address compassion fatigue and burnout.

Create effective marketing and communications tools for donors to increase funding sources.

Utilize technology to communicate with staff enterprise wide and improve internal communications.

# Opportunities

## Internal

### Funding

Become less dependent on government funding by increasing unrestricted funding.

-

Cultivate a more diverse funding base to increase unrestricted funding.

-

Continue to make healthy financial decisions and diversify so Featherfist maintains its financial stability.

-

Develop better marketing material  
- explain the origin of name and provide general information about what Featherfist does to funders.

### Technology

Conduct structured, mandatory training on new software and technology systems.

-

Create policy for staff regarding use of upgraded technology and systems.

-

Use a secure and encrypted database for client files that staff can access.

-

Increase accountability though through standardized reporting modules in the form of “trigger driven” calendars.

### Communications

Conduct regular meetings between department heads to improve interdepartmental communication.

-

Conduct regular meetings between case managers and program director.

-

Increase use of technology to improve internal communications.

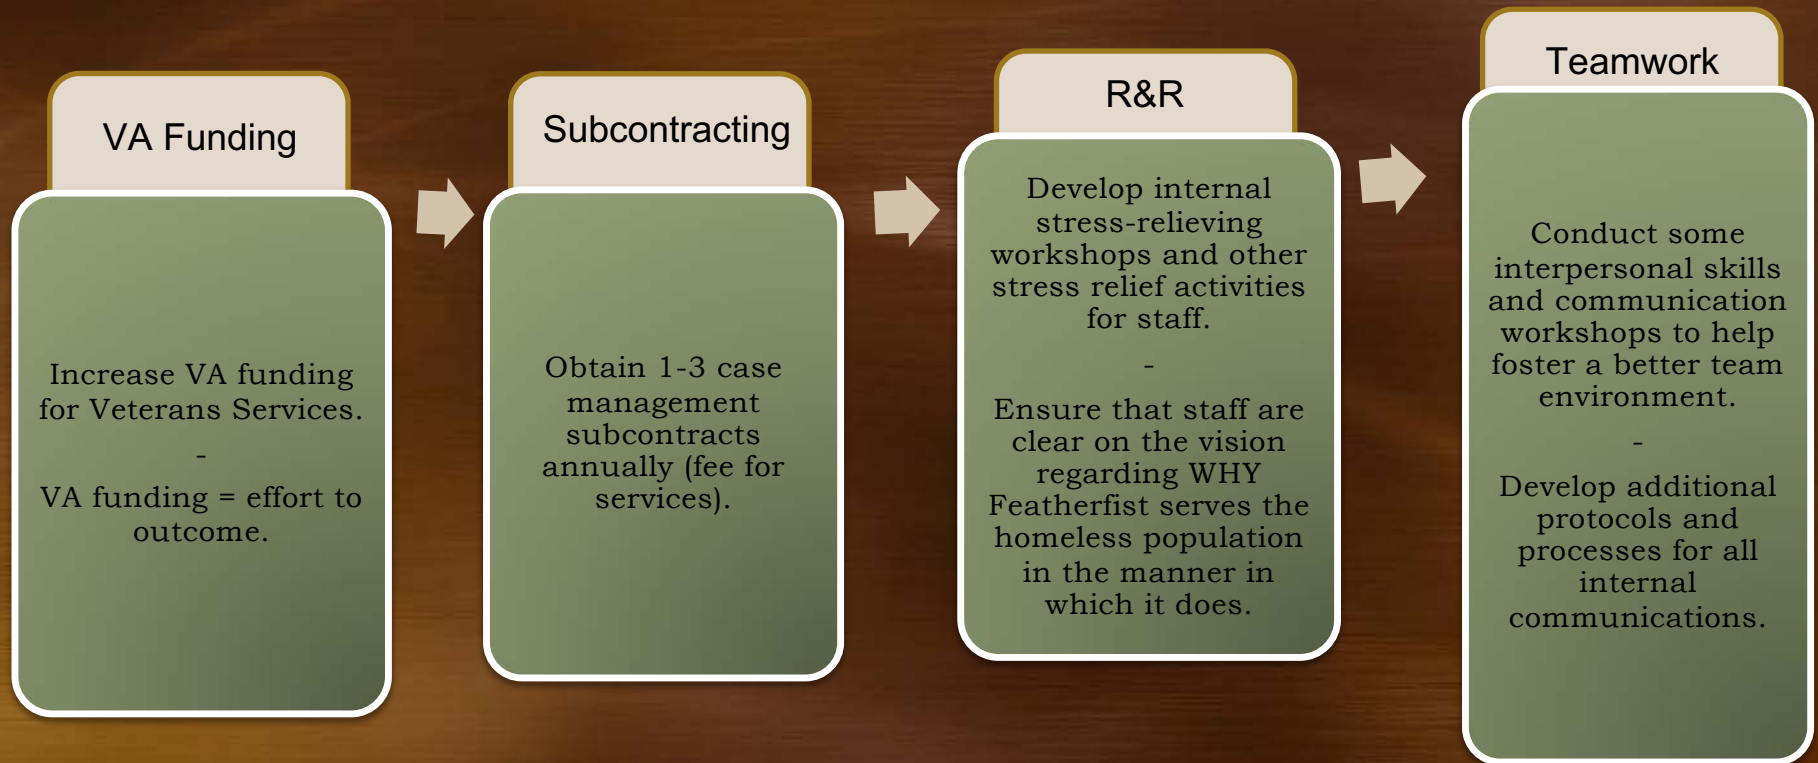

-

Update website to provide more information about Featherfist programs, services and staff.

# Opportunities

## External

# Current Reality

## External Strengths

Other organizations are starting to work with veterans, and can collaborate with Featherfist.

Featherfist has built strong relationships with partner organizations.

## External Barriers

Non government funding sources have significantly reduced funding.

Long wait lists for permanent subsidized housing in Chicago.

Lack of unity in the service provider community leads to lack of advocacy to make the government keep certain types of funding.

Landlords are apprehensive to house unemployed clients.

All continuum of care agencies in Chicago lost funding in FY 2014 due to HUD funding cuts.

## Support Services

# Current Reality

## External Strengths

## External Barriers

## Government Policies

Increase in government RFP's that offer unrestricted funds.

Government is prioritizing housing developments for the homeless by offering tax credits to developers.

Increase in VA funding and funding for Veteran's services.

Additional opportunities to subcontract case management services

Economic changes and changes in what the government wants to fund lead to a lack of control for Featherfist.

Economic hardship and shifts: The "working poor" are the new homeless.

Government funders are emphasizing rapid re-housing and a housing first model that has forced Featherfist to adapt its core model of services.

# Current Reality

## External Strengths

## External Barriers

## Foundations

Featherfist has a network of sponsors and partners that can be utilized for referrals.

Foundations have flexibility with the purpose of their grants.

Recent stock market recovery has benefited Foundations.

There is a general preference for supporting programs rather than providing operating support.

Giving amounts are impacted by external economic conditions.

Foundations have transitional leadership that directs funding resources.

Foundation giving in Illinois has been consistently decreasing.

Human services is not one of the most supported areas.

# Critical Strategic Issues

# Critical Strategic Issues

*What the future holds for Featherfist*

The identification of three critical strategies occurred in 2014 that relate to Featherfist's basic mission and vision for success over the next five years.

Increase Unrestricted Funding;  
diversify funding sources

Upgrade technology and  
implement continuing education  
programs to increase efficiencies  
and streamline processes

Recognize and Address  
Compassion Fatigue

# Increase Unrestricted Funding

**PURPOSE:** Featherfist is projected to considerably expand the amount of homeless individuals and families served over the next five years. The purpose of this goal is to further solidify and diversify our funding in order to accommodate this increase.

**CHALLENGE:** Diversify Featherfist's funding base beyond government programs so the organization is less reliant on changing government programs.

### Action Steps

Based on assessment results, create an internal peer support group that meets after work hours on a bi-weekly or monthly basis to give staff opportunities to debrief informally and process traumatic material.

Create an employee satisfaction survey (using SurveyMonkey). Once the results were compiled, present the findings during a staff meeting. Then meet in small groups to focus on specific issues and determine what staff and the agency can do to address the problems identified. These suggestions can become newly formed internal committees created to respond to employees' concerns. Use proven methodology to develop Featherfist-centric survey

Develop strategies to manage work-related stressors in positive ways. Utilize the workbook provided by the National Center on Family Homelessness for agencies that work with the homeless to develop internal agency activities for staff and staff retreat.
